BIKE BRITE, INC. ®: MOTO-MASK

Bike Brite® has launched their Moto-Mask™ Windscreen Rain Coating. The wipe-on coating provides water sheeting action that makes raindrops virtually disappear allowing riders to see clearly in rain and mist. It is safe on Plexiglas®, acrylic, polycarbonate, and Lexan®. It also protects and aids in vision related to helmet visors and mirrors. You can even apply it in the rain and still get a crystal clear view. For more information and related products, contact Bike Brite® at 800.927.4833 or visit www.bikebrite.com.
