Bike Brite Moto Mask Windscreen Rain Coating

Safe to use on mirrors, helmet visors and all windscreens — acrylic, Lexan, polycarbonate or Plexiglas — the wipe-on Bike Brite Moto Mask Windscreen Rain Coating (\$9) uses a unique sheeting action making raindrops disappear. This will improve vision when caught in the rain, drizzle or misting conditions, plus keep water spots off mirrors, helmet visors and windscreens. **Bike Brite, Inc., 800-927-4833, www.bikebrite.com**
